

Java & Atlassian Marketplace App Developer

About Us

Snapbytes is an Atlassian Solution Partner and Atlassian Marketplace Vendor with proven expertise in ITSM, Agile, DevOps and Test Automation. We are trusted by thousands of local and global enterprises, helping them to get the most out of their software and transforming the way they do business. With offices in İstanbul and Cambridge, we provide solutions to help our clients improve, automate and accelerate their processes.

At Snapbytes, we collaborate and share, we achieve everything together, we talk straight, and we believe in continuous change and innovation. Our employees are the key to our success. Come see for yourself!

About The Role

For this Java Developer role, we are seeking people who have excellent communication skills, enjoy coding as a team and love working closely with customers to develop great apps.

As a Java Developer, you will work with the team to build and improve our apps on Atlassian Marketplace. You'll also have the opportunity to work in all areas of product development, from defining features to providing documentation and second level technical support. No two days will be the same!

Customer interaction is key to this role. While building the products, you will have the ability to research and interact closely with our customers all over the world.

About You

Essential skills:

- Have a degree in computer science, or equivalent education/work experience.
- Have professional work experience between 2 to 5 years.
- Experience scripting/coding in Groovy, Java or any other similar language.
- Experience with React or Node JS.
- Knowledge of the HTTP protocol and experience working with RESTful services.
- Experience with the Atlassian toolset.
- Jira Administration - understanding of Jira workflows, permission schemes, notification schemes, screens schemes, etc.

- Able to work effectively independently as well as in a team environment.
- Comfortable working collaboratively both face to face and through online tools such as Zoom, Slack and MS Teams.
- Have a strong work ethic with good time management and the ability to work with diverse teams.
- Demonstrate excellent communication skills including the ability to effectively communicate with internal and external customers.
- Adaptable with a passion for engaging with foreign customers.
- Analytical - able to think on his or her feet and a fast learner.
- Fluent in written and spoken English.
- Have no military obligations or postponed for at least two years.
- Willing to step in and help other team members as needed. We're a team – so everybody does the dishes, there are no lone rangers here.

Optional skills:

- Jira plug-in development and the Atlassian Plugin SDK.
- Experience within a fast-paced, fast-growth tech start-up environment.

To apply for this role, please send an application cv@snapbytes.com and we'll get back to you as soon as possible.
